Greater Swiss Mountain Dog

There are several theories surrounding the origin of this breed. The most popular theory posits that they are descendants of the Molosser, a popular war dog for ancient armies, and it's theorized that they were brought into the Alps more than 2,000 years ago when the Roman Legions invaded. They are also closely related to the Bernese Mountain Dog.

Pug

The Pug, or Pug Dog, is famous for its flat-faced appearance and large, soulful eyes. They are an ancient dog breed that originated in China over 2,000 years ago. They were originally developed as a refined pet of Chinese royalty along with the Pekingese and the Shih Tzu. During this time, the Pug was considered a national treasure that outsiders could only access if one was gifted to them.
